Warranties are provided by X6D USA Inc., XPAND 3D d.o.o., or X6D Limited ("Warrantor") and cover defects in workmanship and materials for products manufactured by Warrantor ("Products"). This limited warranty extends only to the original purchaser ("Purchaser" or "you") of Products manufactured by Warrantor or one of its Certified Integrators, and is not assignable or transferable to any subsequent purchaser/end-user. Warrantor does not warrant products manufactured by other companies, regardless of whether those products are purchased through Warrantor.

Warrantor Limited Warranties do not cover:

- A. Normal wear and tear of the Product.
- B. Lens breakage.
- C. Costs related to the removal, installation, or troubleshooting of the Purchaser's systems or of any subsequent users' systems.

These warranties do not apply to and Warrantor will not be responsible for any defect in or damage to:

- F. The Product if its original identification (trade-mark, serial number) markings have been defaced, altered, or removed.

- H. The Product if it has been used as a component part of a product expressly warranted by another manufacturer.

Warranty Performance

The Customer is responsible to inspect the contents of a shipment within three days of receipt in order to report any product as »DOA« (Dead On Arrival). Any damage to the shipping container should be immediately reported to the carrier. In order to obtain »DOA« service under this warranty, Customer must notify XPAND of the defect

within 3 days after delivery of product and make suitable arrangements for the performance of service. Should product be received as »DOA«, XPAND will be responsible to pay for shipping costs both ways.

Warrantor will, at its option, repair or replace any defective Product. This service is free of charge, provided that Purchaser notifies Warrantor of the product defect within the Warranty Period, as defined below, for the product, and provided that Warrantor, through inspection, establishes the existence of such a defect and that it is covered by this Limited Warranty.

The Purchaser shall bear the cost of shipping the Product to Warrantor. Warrantor shall bear the cost of both parts and labor necessary to repair the Product, and return shipment to the customer via a Warrantor-selected non-expedited freight.

Return products that are found to be in working condition will be subject to US \$3 handling fee per unit. Please verify that the products are not working and that the product is under warranty as stated in this document prior to returning a product.

Warrantor will, at its option, use new and/or reconditioned parts in performing warranty repairs and building replacement products. Warrantor reserves the right to use parts or products of original or improved design in the repair or replacement. If Warrantor repairs or replaces a Product, its warranty continues for the remaining portion of the original Warranty Period. All replaced Products and all parts removed from repaired Products become the property of Warrantor.

By exercising the Limited Warranty the Purchaser acknowledges that repaired/replacement Product may consist of refurbished equipment that contains used components, some of which have been reprocessed, that comply with Product performance and reliability specifications.

Warrantor's limit of liability under the limited warranty shall be the actual cash value of the Product at the time the Purchaser returns the product for repair, determined by the price paid by the Purchaser for the Product less a reasonable amount for usage. Warrantor shall not be liable for any other losses or damages. The Purchaser will be responsible for any expenses related to the removal and reinstallation of the Product.
